

Machine Problem Submission Checklist

Print this document on a short bond paper. Accomplish the checklist by writing your answers on the indicated space.

1. ACADEMIC HONESTY

- a. Did you read, understand, and complied with Section 4.15 Policy Statement on Academic Honesty of the [DLSU Student Handbook](#)? _____
- b. Do you declare that you HONESTLY worked on your Machine Problem and that the solution you are submitting is your own original work? *(This means that except from consulting with your CCPROG1 teacher, you did not communicate in any way, i.e., verbal, written or electronic, with another person regarding the solution to the MP.)*

2. MP DELIVERABLES

- a. What is/are the filename/s of the source code/s that you will submit via Canvas?

- b. Did you check your source codes for syntax errors? If yes, is there any syntax error in the source codes? Is there any warning? **Please note that a source code with syntax error/s will automatically receive a grade of 0.0. Warning/s will cause point deduction/s.**

Number of compilation errors is: _____ Number of warnings is: _____

- c. Is there any semantic/logical error in the source codes that you will submit?

If you answered YES, describe in detail the nature of the logical error/s. Use the space provided below. If the space is not enough, use the space at the back page of this document. **Logical error/s will result into point deductions.**

- d. What printed documents will you submit?

- e. Did you staple this document on top of the documents you named in part 2d above? [Note: you should staple the printed documents together!] Non-compliance will result to point deduction/s.

Last Name, First Name (in capital letters): _____

Section: _____

Signature: _____

Date Submitted: _____

Submit this checklist together with the other required printouts. Staple the printed documents together.
